

# UNIVERSIDAD POLITÉCNICA DE VALENCIA

## ESCUELA TÉCNICA SUPERIOR DE INGENIEROS DE TELECOMUNICACIÓN

### LETTER OF RECOMMENDATION

This letter of recommendation has been requested from Prof. Clara Pérez Fuster, Titular Professor of the *Escuela Técnica Superior de Ingenieros de Telecomunicación* by Alexis Sánchez Sanz

I like best the candidate's creativity and common sense. Persistent and with outstanding ability to solve problems, Alexis is a model of his class because of his academic achievements and commitment to his Higher School.

I would like to stress his bright mind, special ability to deal with very new technical problems and his involvement in new University projects.

I have been a teacher and tutor of Alexis during the academics years 2013 and 2014. He has attended my classes of the course Electronic Circuits, Analog Electronic, and Sensors. He has shown great interest and performing all tasks promptly and resolutely. On this subject he has learned both the operation of electronic circuits and the techniques and management of laboratory instruments for their characterization.

The above characteristics qualify as him good student, interested in discovering the why of things.

In summary, it is a pleasure to recommend especially to Alexis Sánchez Sanz to work in his company.

Yours sincerely.

Valencia, 18 July 2017

Prof. Clara Pérez Fuster  
Titular Professor of the Higher School of Telecommunications Engineering  
Universitat Politècnica de València.
